

Our Omnibus Budget.
A law overcharged with severity, like a blunderbuss known to be over-loaded with powder, will be pretty sure to grow rusty by disuse.
In the statement of truth, clearness is intimately connected with conciseness, as the lightning, which is the brightest thing, is also the briefest.
Pleasant and cool upon the souls of the scholars of the present age, lie the shadows of the trees under which Plato taught.
The disconsolate lover writes letters with his own blood. He wades into the brook to be bitten by leeches, and uses his feet as inkstands.
The steam of your life is not in all things like an ordinary stream; you can't infer that it is pure because you distinctly see the dirt at the bottom of it.
Half our lives we pass in the shadow of the earth; and sleep, the brother of Death, exacts a third part of our lives.
Gov. Morgan, of New York, has written to each township Surveyor, urging him to push forward army enlistments with the utmost endeavor.
Recruiting is said to be going on very briskly in the City of New York. One office a day or two since enrolled 120 men in one day, and all the recruiting officers in the city, the N. Y. Times says, report the prospect very encouraging.
A good humored, witty little fellow, looking up in his father's face, said, "Papa, what makes wine so red?" "It is the logwood that's put in it," said the father. "Well, then, is it the logwood in the wine that makes your nose red?" "Step your nonsense, and go to bed, Willie."
Figures of Mason and Slidell have been added to the famous wax collection of the late Madame Tussaud, in London. The Saturday Review says that "Mr. President Lincoln stands awfully at ease with an expression which indicates at once dyspepsia and ferocity."
The wheat harvest in the Miami, Scioto and Hocking valleys, is magnificent almost beyond precedent, and the luxuriant cornfields present a cheering aspect of a mighty maize, and not without a plan!
Morgan came very near being captured at Paris. While he was at breakfast, General Smith's cavalry dashed into the town, and was shooting down the horse thieves in the streets. Morgan escaped in his slippers, leaving his breakfast untasted.
The rebel sympathizers hope to make capital out of the operations of the National Tax law. They will find themselves mistaken. The payment of taxes to support the war will only make the people more earnest in its prosecution.
A few days ago Gov. Yates, of Illinois, received a letter, in which the writer complained that traitors in his town had cut down the American flag, and asking what ought to be done in the premises. The Governor promptly wrote him "to shoot such offenders down, and I will pardon you for the offence."
During a terrible storm at Iron Mountain, Missouri, on the 20th inst., the lightning struck a large oak bank in one of the furnace cuts, and dislodged and threw down from 2,000 to 2,500 tons of ore. To have dislodged the same by powder would have cost the company several hundred dollars.
A man who owned a lot in Sacramento, California, during the late floods, went to see if his fence was washed away. He found that he had lost his fence, but had caught a fine two-story house, which made him a good deal more than square in the operation.
The Mississippi of a late date announces that Gen. Butler was recently in Baton Rouge, and that during a conversation with some of the citizens he was asked what the Government would do in case of interference for the rebels by European powers. He replied: "Rather than give up a single one of the States, it will make the whole South another San Domingo."
The Richmond Enquirer of the 15th appears alarmed at the order of our War Department, concentrating the forces of McDowell, Fremont and Banks under Gen. Pope, and remarks of the latter "that he is notoriously one of the most dangerous of the Union commanders, an officer of great activity and daring, and is very apt to do unexpected things." It adds that "the foray in Orange County, and the destruction of the railroad bridge over the Rapidan by the enemy, is a challenge on the part of that our Generals have now to take up."

The Farm and Garden.
What a Cow has done for the War—A Recruiting Incident.
We heard of an incident yesterday which should make some of our rich men blush who are subscribing their paltry fives and tens to the recruiting funds of their several localities. It was this:
A few days since, subscriptions were set on foot in Orleans county. A farmer of moderate means contributed \$50 and a cow. Every one conceded that this was liberal; but it occurred to a friend that the Cow might be turned to excellent account. Lots were to be cast for her, and 205 tickets, at \$1 each, were distributed and paid for. This, practically, brought up the farmer's subscription to \$255. But the Cow was destined to do still better. The winner put her up at auction, and \$30 more were added to the fund—making that aggregate \$285. But it was deemed a pity that a Cow so thorough patriotic should be sold so cheap; and the result was that \$15 were added to the purchase money—making the Cow's aggregate contribution to the fund \$250, besides the \$50 from her original owner.
There are a great many rich men, all over the county, who will not do half as much for the War as this Cow!—*Albany Journal.*
AN EXCELLENT COUGH SYRUP.—We find in an exchange paper the following valuable recipe, which we lay before our readers. It is simple, cheap and effective.
Take one ounce of thoroughwort, one ounce of slippery elm, one ounce stick of flax seed; simmer together in one quart of water until the strength is entirely extracted. Strain carefully; add one pint of best molasses and a half a pound of loaf sugar; simmer them well together, and when cold, bottle tight.
The writer adds:
This is the cheapest, best and the safest medicine for coughs now or ever in use. A few doses of one tablespoonful at a time will alleviate the most distressing cough at the lungs, soothe and allays irritation, and if continued subdues any tendency to consumption, breaks up entirely the whooping cough, and no better remedy can be found for croup, bronchitis, and all affections of the lungs and throat. Thousands of precious lives may be saved every year by this cheap and simple remedy, as well as thousands of dollars which would be otherwise spent in the purchase of nostrums which are both useless and dangerous.
Sabbath Miscellany.
"Not the Lord, but Burgoyne."
REV. JAMES GALLAGHER used to tell the following anecdote with great zest: During the Revolutionary war, reports were circulated as they are now, either wholly false or greatly exaggerated. In passing from one to another, something was sure to be added, until the story would hardly be known to the author of it. The people in certain sections of New York were in great consternation from a report that Burgoyne was marching down with an immense army from the Lakes, and going to sweep over the whole country, bringing utter desolation to the inhabitants. An old lady heard the report, and understood it that Burgoyne was going to open the Lakes and let out the water, and down the whole region. Full of the terrible vision, she ran into a neighbor's to tell her the latest news about the war. "Do you know that we are all going to be drowned? Burgoyne is going to let the water out of the Lakes, and make a great flood, and we shall all be drowned! Oh! what shall we do?" Her neighbor, with more intelligence and more piety, did not seem to be greatly disturbed, but calmly replied: "That certainly must be a mistake. It cannot be true, for God has promised in his word that he will no more destroy the inhabitants of the earth with a flood." "Ah, honey! I know that; but it's not the Lord who is going to do it—it is Burgoyne!"
"Now there are a great many people like this poor woman. They do not believe that God rules over all, and that his Providence extends to all events, no matter how they are brought about—that even the wicked are his sword, and the rod of his indignation, with which to scourge the guilty. They think that Burgoyne does a great many things in the world. Hence they are filled with unnecessary fears. They do not put implicit confidence in God, and stay their minds on him. Hence their souls are not kept in perfect peace. There is no doctrine so well calculated to give and repose to the soul in perilous times as that of a particular Providence. If we can feel as the little son of a sea captain did in the storm. 'My father at the helm,' we may be calm and peaceful even amid the billows of a furious tempest. God is the pilot of our ship of state; and he who raises the storm, and causes the winds to blow, and the waves to rise and dash in fury upon the shores, can also say to those waves, 'Peace, be still, and there will be a great calm,' and so he will bring in the good old ship to the desired haven. Let us embrace and cling to the great truth, that nothing takes place without God's agency or permission, and that 'his kingdom ruleth over all.'"
The domestic affections can no more bloom in the hardened race-course of politics than flowers can flourish in the paved streets.

Mr. H. B. Kingsley, Secy.—I have been editing the "Union" for the last ten years, and have invariably found them to give great satisfaction, and the editor of the "Union" has been as regular as the clock, and with my friends and acquaintances, I cannot recall ten married ladies living in this century and country who are perfectly healthy. In cases, however, where the Greenberg's Cathartic has been used, we must say that health has rapidly been restored, and the system has become robust, strong, vigorous, and healthy.
"Beautiful, indeed, is the confiding, trusting nature of woman, but how much does it need to be protected by a watchfulness that will lead her in time of disease to express in a medical adviser of scientific education, moral worth and purity of character.
All these may be secured by addressing the Greenberg's company.
I am a Methodist clergyman. My heart has fairly ached to witness the feeble health of women as I have preceded my circuit, preaching the Gospel. I hereby certify that I have been dealing in the Greenberg's Medicines for the past year, and can truly say that I have met with the most successful results in the people like these, particularly the pills and cathartic. They will readily perform all and more than is promised for them. I have sold about five boxes of the cathartic the past season, and I hear the best results in every case.
Read what Dr. Bushnell says of the Greenberg's Medicines. Dr. B. is a physician of extensive practice, and one of the most successful in the country (Trumbull Co.) in which he resides.

Family Medicines.
MOFFAT'S Life Pills and Phoenix Bitters.
These Medicines have now been before the public for the last THIRTY YEARS, and during that time have maintained a high character in almost every part of the world. For their extraordinary and almost instantaneous power of restoring perfect health to persons suffering under nearly every kind of malady, they are famous. It is a fact that the following are among the distressing variety of human diseases in which they
Vegetable Life Medicines
are well known to be infallible.
DYSPEPSIA, by thoroughly cleansing the feet and second stomach, and coming a new force of life into the system, instead of the stale and acid food; FLATULENCY, Loss of Appetite, Heartburn, Headaches, Nausea, Hiccups, Anxieties, Longing and Colic, which are the general symptoms of Dyspepsia, will vanish, as a matter of course, when the system is restored to its normal condition.
CONSTIPATION, by cleansing the whole length of the intestine with a solvent process, and without violence, all violent purges leave the body more in two days. FEVERS of all kinds, by restoring the blood to a normal condition, through the process of regulation in such cases, and the thorough solution of all internal obstructions in others.
These Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.
DROPSIES of all kinds, by freeing and strengthening the system, and by removing local inflammation from the chest and lungs, and hence have ever been a certain remedy for the very worst cases of GRAVEL.
Also WORMS, by dislodging from the turnings of the bowels the slimy matter in which these creatures are bred.
SCURVY, ULCERS AND INFLAMMATORY SORES, by the perfect purity which these Life Medicines give to the blood, and all the humors.
SCORBUIC AFFECTIONS and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, skin eruptions, and other disagreeable affections.
The use of these Life Medicines for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLIC and INFLUENZA will be cured by one dose, or by two in the worst cases.
FILES.—The original proprietor of these Medicines was cured of Piles, of 25 years standing, by the use of the Life Medicines alone.
FEVER and AGUE.—In this scourge of the Western Country these Medicines will be found a safe, speedy and certain remedy. Other medicines leave the system debilitated, and the disease returns. A cure by these Medicines is permanent—TAY, THE SATISFIED, AND THE CURED.
BILIOUS FEVERS are LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Female—the Medicines have been used with the most beneficial results in cases of this description: Kings Evil, and Scrofula in its worst forms, yield to the aid and potent power of these remarkable Medicines.—Night Sweats, Nervous Debility, Nervous Complaints, of all kinds, and all the diseases of the Liver and Gallbladder are speedily cured.
MERCURIAL DISEASES.—Persons whose constitutions have been impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to cleanse the system of the poison. All the effects of Mercury, indistinctly sooner than the most powerful preparations of Sarsaparilla.
